SentBe Global Marketing Intern · Cross-border remittance fintech

Dec 2025 – Mar 2026

Responsibilities

- Customer acquisition and community marketing for the Bangladesh market
- Planning and running online and offline events
- Customer support in three languages (Bengali, Korean, English)

Key work

- **Entering a market with no precedent:** as the first intern on the Bangladesh market, researched the local community directly, with no playbook to follow
- **Community-based events:** planned and ran online and offline events for the Bangladeshi community to acquire new customers
- **Carrying the local voice:** answered customer inquiries directly and relayed local customers' reactions and cultural context to the Korean team

Relevance

- Understanding a community and reaching it through channels and language it trusts underpins any work with global customers and partners.

SK Innovation · mySUNI Global RA (Intern) · Change Management Team

Apr 2026 – Jul 2026

Responsibilities

- Planning and running exchange programs between Korean and international employees
- Supporting the AI Capability Development and Management Capability teams

Key work

- **Program planning:** owned brown-bag seminars, Country Day (20–30 people), and small-group tea times end to end, creating space for employees from different backgrounds to connect
- **Reframing the message:** reinterpreted SKMS (SK Management System) from an international employee's perspective and co-presented a localization proposal for delivering the same values in a different language and context

Relevance

- Re-delivering core values to fit each culture is a skill that carries directly into work in global organizations and markets.

QOC Co-founder · Head of Public Relations · Online learning platform, Bangladesh

Aug 2019 – Dec 2024

Responsibilities

- Leading the PR department and managing operations for a team of 15–20
- Teaching Korean, English, and programming, and planning course content

Key work

- **Leading PR:** co-founded the platform and led external communications for five years
- **Content planning:** taught Korean, English, and programming classes and designed content suited to learners' levels

Relevance

- Finding the work and delivering results in a small organization translates into checking outcomes and looking for better ways in any role.

O/I Spark (project) SK SunnyC Future Capability Program · Team 7

Jun 2026 – Aug 2026

Key work

- Built, as a team, an AI service that collects and analyzes external trends and cases to surface new innovation tasks
- Implemented the evaluation module that scores candidates on Impact, Feasibility, and ROI and ranks them, replacing reviewers' inconsistent judgments with a shared standard

Relevance

- Comparing options on the same metrics to decide where to focus applies directly to analyzing performance and finding what to improve.
